

# ALEJANDRO CALVILLO FERNANDEZ

TELEMATICS ENGINEER

## PERSONAL PROFILE

I am a last-year student of Bachelor's Degree in Telematics Engineering (Bilingual) at Universidad Carlos III de Madrid. I'm currently looking for a position where I can coordinate my studies with my professional career.

## EMPLOYMENT HISTORY

### Private Tutor

Freelance | January 2017 - Current Position

I have helped children and teenagers to overcome their difficulties in different subjects, such as Physics and Maths, with verifiable results.

- In this position, I have learned to identify, deal with and overcome difficulties.
- I have also learned to adapt to the requirements of my students and offer them a personalized treatment.

### Decathlon's Collaborator

Decathlon | May 2021 - September 2021

As one of my tasks, I guide customers towards products that would accurately fit their personal needs.

- During my term in this company, I have learned to work facing public.
- Also in this position I belonged to a huge group of co-workers who know how to work as a team to overcome difficulties.

## LANGUAGES

- Spanish: Native Speaker
- English: Technical Speaker:
  - Certified by Cambridge University in FCE.
  - Technical English related to IT.

## PROFESIONAL SKILLS

- Certified in Data Analysis with Python
- High knowledge in several Developing Languages.
- High knowledge in Web Developing Environments.
- High knowledge of Microsoft Office Suite and Microsoft Operating Systems.
- Advanced knowledge of Linux Environments.

## PERSONAL SKILLS

- Ability to resolve contingencies with optimal solutions.
- Analysis capability.
- Fast Learner.
- Eye on the detail
- Team Work.

## EDUCATION

### Universidad Carlos III de Madrid

Telecommunication's College | September 2017 - Present

Telematics Engineering Student in English

Recognized degree with EUR-ACE® accreditation, thus offering the technological knowledge and professional skills necessary to provide creative responses to the current needs of a constantly evolving market.

- In this degree I have been working on many developing languages, mainly in Java and C.
- I have acquired the necessary knowledge for design, test and look for errors in a code.
- I am able to apply my knowledge in order to make a design on telematics networks.
